Fate's Edge

Essential Starting Guide

GM & Player Reference — One Region, One Road

*“The road remembers. Every broken wheel leaves a mark, every lit lamp bears witness. The only question is: what are you willing to owe?” —
Dusana of the Raven Road*

Welcome to Fate's Edge. This guide contains everything you need to start playing—core rules, character creation, one region (Acasia), GM procedures, and a starter adventure hook. No other books required.

1 The Philosophy of Consequence

1.1 Narrative First

Every roll tells a story. In Fate's Edge, mechanics serve the story. When you roll dice, you are not asking “did I succeed?”—you are asking “what happens next?”

The Golden Rule: When in doubt, make the choice that serves the story. Set DV=3, Position=Controlled, and let the dice fall.

1.2 Safety at the Table

Fate's Edge explores mature themes. Use these tools to keep play safe:

- **X-Card:** Any player may say “X” to stop a scene. No questions asked.
- **Lines:** Content that will not appear (e.g., “no harm to children”).
- **Veils:** Content that fades to black (e.g., “romance is implied, not described”).

Establish these in Session Zero.

2 The Core Resolution

2.1 The 90-Second Loop

Every meaningful action follows this cycle:

1. **Declare** your intent and approach (Attribute + Skill).
2. **GM sets DV** (2–5+) and **Position** (Dominant/Controlled/Desperate).
3. **Roll** dice pool (Attribute + Skill d10s).
4. **Count successes** (6–10 = 1 success). Each success carries weight — Beat (SB) for GM.

2.3 Position

Position tells you how risky the action is and changes how dice behave:

Position Effects		
Position	Frame	Mechanical Effect
Dominant	You press advance	Re-roll one failure
Controlled	Balanced norm	No re-rolls
Desperate	Act under duress	Re-roll one success

Pro tip: Spend 1 Boon to improve Position by one step before rolling.

2.4 The Outcome Matrix

Outcome Matrix	
Roll Result	What Happens
Successes ≥ DV, SB = 0	Clean Success – Intent achieved, no complication.
Successes ≥ DV, SB > 0	Success with SB – Intent achieved; GM spends SB.
0 < Successes < DV	Partial – Progress; gain 1 Boon.
Successes = 0	Miss – No progress; gain 2 Boons; GM spends SB.

A Partial is not failure. It moves the story forward: improve Position for next attempt, reduce DV, succeed at reduced scale, or reveal information.

A Miss is never “nothing happens.” The GM must introduce a complication.

2.5 Critical Success (10s)

A roll of 10 counts as **two successes**. If the overall roll succeeds:

- **1 ten:** Strong success—improve Position or gain minor advantage.
- **2 tens:** Exceptional—choose two benefits.
- **3+ tens:** Legendary—decisive victory; clear 1 segment from a relevant timer.

3 Resources: Boons & Story Beats

3.1 Boons—Player Currency

Boons represent luck, momentum, and narrative leverage. **Spend them freely.**

Boons at a Glance			
Earning Boons	Gain	Spending Boons	
Partial success	Gain 1	Re-roll a die (1 Boon)	
Miss	Gain 2	Improve	Position (1 Boon)
Bond-driven action	Gain 1 (once/bond/session)	Activate Asset (1 Boon)	
GM award	+1 (rare)	Convert 2	→ 1 XP (once/session)

Holding cap: 5 Boons. At end of scene, reduce to 2 (excess lost).

The Math of Fun: Hoarding Boons for XP conversion starves the table of drama. A re-rolled failure or an improved Position creates a memorable moment. Spend Boons!

3.2 Story Beats (SB)—GM Currency

Every time a player rolls a 1, the GM gains Story Beats. Spend SB to introduce complications:

SB Spend Menu	
Cost	Complication
1 SB	Minor – noise, distraction, tick a timer +1
2 SB	Moderate – alarm raised, lose advantage, worsen Position
3+ SB	Major – reinforcements, scene shifts, break an asset

Be aggressive with SB. Unused pressure is wasted momentum.

4 Injury & Exhaustion

4.1 Fatigue—The Weight of the World

Each point of Fatigue worsens your Position. If already Desperate, each Fatigue imposes –1 die instead.

Fatigue Progression	
Fatigue Level	Effect
1	Position worsens one step
2	If already Desperate, –1 die; otherwise Position worsens
3	–2 dice (if already Desperate from Fatigue)
4+	Collapse, KO, incapacitated

Recovery: Short rest removes 2 Fatigue; full night’s rest removes all.

4.2 Harm—Serious Injury

Harm Levels	
Harm Level	Effect
Harm 1	–1 die on related actions
Harm 2	–1 dice on most actions
Harm 3	Incapacitated or dying

4.3 The Roller-Coaster Effect

Taking Harm clears Fatigue. The shock of a wound resets your exhaustion. This creates dramatic swings—a character near collapse who takes a wound and finds a second wind.

4.4 Armor Conversion

When you take Harm, armor converts some to Fatigue:

Armor Conversion			
Armor	Harm 1	Harm 2	Harm 3
Light	Fatigue 1	Harm 1 + Fatigue 1	Harm 2 + Fatigue 1
Medium	Fatigue 1	Fatigue 1	Harm 2 + Fatigue 1
Heavy	Fatigue 1	Fatigue 1	Fatigue 2

5 Building Your Character

5.1 10-Minute Checklist

- Start with **32 XP** (max 36 with Bonds/Complications).

6 The Known World: Acasia

“The Broken Province”

6.1 Genre & Mood

Low fantasy / mercenary realism / border feud. Acasia festers between the fallen Uтарan Empire and the ambitions of petty kings. Every bridge demands a price, and every road curves back to the same cursed crossroads.

6.2 What You Notice First

The smell of mildew on old parchment and wet ash. The way every milestone has been recarved. The silence of a village that heard you coming and chose not to open its gates.

6.3 The One Rule That Kills Newcomers

Never sign a contract on a bridge. The river is a witness, and it never forgets a signature.

6.4 Key Factions

Acasia Factions		
Faction	Leader	Goal
Broken March	Mar-gravine Mira	Keep the province from fracturing
Lame King's Claimants	Oren “Tin Crown”	Be recognised as true sovereign
Free Companies	Various captains	Find permanent contracts
Blackwood Matriarchs	Hedge-witches	Survive the Curse

6.5 The Curse of Acasia

The land remembers what we did—and what we failed to do. Every broken milestone is a forgotten promise. **Mechanical effect:** When you cross a bridge or crossroads, roll Spirit + Resolve (DV 3). On a failure, the Curse stirs—gain 1 Fatigue or a minor complication (GM's choice).

6.6 Acasia Mini-Generator (d6)

1. A bridge toll has tripled overnight; the toll-keeper is a deserter from your old company.
2. A hedge-witch offers to break your blood-debt—for the memory of your first kill.
3. The Lame King travels with a mute jester who writes prophecies on fallen leaves.
4. Bandits stole a Blackwood Matriarch's curse-box. Recover it before it opens.
5. A free company captain wants to hire you—but their last three hires died of “accidents.”

6. The Margravine's seal is missing. Whoever finds it can rewrite border law.

7 Running Fate's Edge

7.1 The GM Mindset

You are not a referee. You are a **co-creator of drama**. Your tools (SB, timers) are how you play the game.

7.2 Your Defaults

When in doubt:

- **DV: 3**
- **Position: Controlled**
- **Consequence:** Fatigue, time pressure, or exposure
- **Timers:** One short timer tied to the scene

7.3 The Three-Timer Guideline

Keep 1–3 active timers per scene:

Timer Sizes	
Segments	When to Use
4	Short, straightforward challenge
6	Standard scene or tension
8	Extended or complex problem
10	Epic or campaign-long pressure

7.4 GM Survival Tips

7.4.1 When Players Go Off the Rails

Do not panic. Ask: “*What is your goal?*” Name the simplest obstacle—then set Position and DV.

7.4.2 When Players Hoard Boons

Remind them: “*Boons are not XP tokens—they are dramatic fuel.*” Introduce time pressure.

7.4.3 When a Scene Stalls

Ask a leading question, tick a timer, or cut to another player.

7.4.4 When You Don't Know a Rule

Make a ruling that keeps the story moving. Default to DV 3, Controlled Position. Look it up later.

8 The Lantern at Dusk

A Starter Adventure in Acasia

8.1 Setup

The party is hired by **Elder Sarai** of Duskwood. A blight is spreading from the old barrow, where a cursed lantern was buried. The lantern must be brought to a stone circle to break the curse.

8.2 What the Party Knows

- The lantern is in the central chamber of the barrow.
- The barrow is guarded by restless spirits (the Duskwights).
- A rival treasure hunter, **Quick Lena**, has also entered the barrow.
- The curse will kill the village's crops in three days.

8.3 Timers

Adventure Timers		
Clock		Effect
Barrow	Col-	Ticks on failure inside. At 6, entrance seals.
collapse [6]		
Lena's Agenda		Ticks each scene inside. At 4, Lena takes the lantern first.
[4]		

8.4 Scenes

8.4.1 Scene 1—The Entry (DV 3, Controlled)

Obstacle: Cave-in blocks the way (Body + Athletics). **Partial:** Tick Barrow Collapse +1. **Miss:** Mark Harm 1, tick Collapse +1.

8.4.2 Scene 2—The Spirit Corridor (DV 3, Controlled)

Three Duskwights demand an offering (a memory or a secret). Roll Presence + Sway. **Partial:** They also steal random equipment. **Miss:** They attack (Cap 2, Harm 1 each).

8.4.3 Scene 3—The Lantern Chamber

Quick Lena tries to pry the lantern loose. Confront her: Presence + Sway (DV 3). **Partial:** She agrees to split the reward but demands a later favor (start Debt Timer [4]).

8.4.4 Scene 4—Escape (Skill Challenge)

The party needs **3 successes before 2 failures** to escape. DV 3, Position Desperate. Each failure ticks Barrow Collapse +1.

8.5 Resolution

Return the lantern to the stone circle. Break the curse with Spirit + Lore (DV 2). **Partial:** Curse lifts, but the lantern attracts another danger soon.

8.6 Advancement

Each PC earns **6–10 XP** at the end.

9 Basic Magic

9.1 The Five Paths (Quick Reference)

Magic Paths			
Path	Complexity	Cost Type	Best For
Runkeeper	Low	Obligation	First-timers, reliable casters
Cantor	Medium	Corruption	Bards, risk-takers
Invoker	Medium	Obligation + time	Ritual specialists
Summoner	High	Leash + Boons	Pet-class fans
Free Caster	High	Backlash	Improv players

For first magical characters, play a Runkeeper.

9.2 Runkeeper—The Reliable Path

Requirements: Familiar (Thiasos, 2 XP) + Codex (4 XP) + Patron.

Invoking a Rite: 1 action. Mark +1 Obligation. Effect works as written.

Push It: Once per scene, mark +1 Obligation to amplify (+1 die or +1 Effect).

Obligation Capacity: Spirit + Presence. Exceeding capacity = 1 Fatigue per segment.

9.3 Sample—The Traveler's Runkeeper

Kestra, Traveler's Runkeeper (36XP)

- Spirit 3 (9 XP), Wits 2 (6 XP)
- Lore 2 (6 XP), Insight 1 (2 XP), Sway 1 (2 XP)
- Talents: Familiar (2 XP), Codex (4 XP)
- Rites: Road-Sense (4 XP), Traveler's Boon (5 XP)
- Obligation Capacity: 4 (Spirit 3 + Presence 1)

9.4 Free Casting—The TAGS System

For improvisational magic, construct spells using TAGS:

DV = 1 + number of TAGS

Dangerous TAGS (Leap, Fold, Gate, Transform, Dominate) add +2 DV.

9.4.1 Example Spells

- Light** [Illuminate] – DV 2. Create small, sustained light.
 - HEAL** [HEAL] – DV 2. Remove 1 Fatigue from self or touched ally.
 - Shield of Air** [WARD] [DEFEND] – DV 3. Gain Position +1 on next defense.
 - Flame Cloak** [BURNING] [AREA] – DV 3. Enemies suffer –1 die to approach.
- Backlash:** On a Miss or when GM spends SB, magic backfires—Fatigue 1, Harm 1, or a thematic complication.
