LARGE Wilderness: Hinterlands Hearthfires

large A Fate's Edge module for expeditions, survival, hunts, and camps

Version 0.2 (Playtest)

rule

LargeDesign Goals

tem **Wilds as character:** Biomes carry tags, strings, hazards, and timers that push back. tem **From trail to hearth:** Each day's push ends with a camp where choices ripple forward. tem **Low bookkeeping:** A handful of party tracks and a simple day/leg structure. tem **Integrates cleanly:** Works with urban, caravan, political, asset, and psionic play. tem **Ranger talents:** See Appendix A for wildernessfocused talent chains.

LargeQuickstart (2 minutes)

tem Pick a **Region Kit** (§??) and mark **Distance** [48], **Danger** [46], **Weather** [46]. tem Start party tracks: **Supplies** [6], **Weariness** [6], **Sign** [6]. tem Choose a daily **Intent Dial:** **Traverse** / **Scout** / **Hunt** / **Hide** / **Endure** (§??). tem Play 23 scenes (Navigate, Forage, Cross, Track, Parley). On any 1, GM spends SB with **Wilderness SB** (§??), including biome-specific options. tem **Camp Phase:** build camp ß watches ß hearthfire rite ß repair/recap ß adjust tracks (§??).

LargeRegion Sheet Biomes

labelsec:region

largeRegion Sheet (Template)

[REGION NAME]

Biomes in play (23): forest / steppe / desert / marsh / mountain / coast / tundra / badlands

Strings (24): waystones • ford rights • grazing compacts • shrine hospitality • hunting warrant

Threats (23): raider banners • wardstorm bands • apex predators • inquisitors • poachers • spi

Tracks:

Distance [48] to the next safe haven

Danger [46] (ambient pressure)

Weather [46] (seasonal band)

Beast Pressure [46] (apex attention; optional)

Landmarks (46): short names

Notes: seasons, taboos, native trails, friendly outposts

largeBiome Tags Effects

Pick two tags per biome in play.

Forest Effect: *Stalk/Hunt* DV 1 with *Track* or *Herbalist* tags; *Navigate* Position 1 without a trail.

Forage DV: 23 (berries, mushrooms, roots).

Hazards: widowmakers; boggy pockets; parasite swarms.

SB options: tangled path (Delay), hidden nest (start *Beast Pressure* +1), spore burst (Weariness +1).

Steppe Effect: *Chase (horse)* DV 1; *Hide Sign* Position 1 (you leave tracks).

Forage DV: 34 (edible roots, small game).

Hazards: grassfire; stampede; dust whiteout.

SB options: dust plume (Sign +1), distant riders (Danger +1), spooked herd (Weariness +1).

Desert Effect: *Forage* Position 1; *Endure* DV 1 with *Waterwise*.

Forage DV: 45 (cactus water, insects, rare herbs).

Hazards: heat stroke; dune slip; salt glare.

SB options: mirage (Navigate Position 1), scorpion nest (minor Harm), sandstorm threat (Weather +1).

Marsh Effect: *Infiltrate* Position +1; *Drive* Position 1.

Forage DV: 34 (cattails, frogs, medicinal mud).

Hazards: miasma; hidden channels; rot.

SB options: sucking mud (Cross DV +1), leech cloud (Weariness +1), willo'wisp (Sign +1).

Mountain Effect: *Navigate/Climb* DV +1 unless *Surefooted*; *Ambush* Position +1 from above.

Forage DV: 34 (mountain herbs, small game).

Hazards: fall; rockfall; thin air.

SB options: scree slide (Delay), thin air (Weariness +1), avalanche threat (Danger +1).

Coast Effect: *Chase (boat)* DV 1 with *Riverwise*; *Camp* Position 1 in exposure.

Forage DV: 23 (shellfish, seaweed, fish).

Hazards: surf; slick kelp; storm surge.

SB options: rising tide (Camp Quality 1), sea fog (Navigate Position 1), kingfisher omen (Weather +1).

Tundra Effect: *Endure* DV 1 with *Shelter*; *Forage* Position 1.

Forage DV: 45 (lichens, frozen berries, small game).

Hazards: frostbite; thin ice; drift.

SB options: whiteout (Navigate DV +1), frostbite (minor Harm), crack ice (Weariness +1).

Badlands Effect: *Hide/Ambush* Position +1; *Navigate* DV +1 without sun or waystone.

Forage DV: 45 (cactus, insects, rare salts).

Hazards: collapses; blind turns; flash floods.

SB options: false trail (Sign +1), collapse (Delay), heat shimmer (Navigate Position 1).

largeFollower Integration

Animal companions or hired guides may assist in wilderness actions:

tem A **tracker** (e.g., wolf, hawk) grants +1 die to *Hunt/Track* if it can act independently. tem A **pack animal** reduces **Supplies** consumption by 1 per day (minimum 1). tem A **guide** (NPC follower) may take one wilderness action per day on the party's behalf, using their own skills. The party still marks normal tracks on failure.

LargeExpedition Procedures

largeScales Party Tracks

tem **Distance** [48] to the next haven or objective. Tick on strong travel hits. tem **Danger** [46] advances on 1s or loud moves; on fill, trigger a setpiece (raid, beast strike, storm-front). tem **Weather** [46] seasonal pressure; see the Weather Matrix (§??). tem **Supplies** [6] food/fuel/repair stock. At 0, **each PC marks 1 Fatigue** per day until replenished. tem **Weariness** [6] party fatigue and morale. When this timer fills, **each PC marks 1 Fatigue** (or a Condition, GM's choice). Then reset Weariness to 0. Clear Weariness via camp rest (§??). tem **Sign** [6] spoor, smoke, rumor. At fill, you're found by a threat or rival. tem **Beast Pressure**

[46] (optional). Advances when you kill prey, leave fresh kills, or fail *Hide Sign* rolls. At fill, an apex predator confronts the party (treat as a major threat).

largeIntent Dials

labelsec:intents Choose one each day.

tem[**Traverse**] Move Distance efficiently; *Parley* starts one Position worse (you look hurried).
tem[**Scout**] Avoid Danger; *Distance* only on strong travel hits. tem[**Hunt**] Focus on prey/clues;
Forage/Hunt DV 1; Distance advances slowly. tem[**Hide**] Minimize Sign; *Hide Sign* and *Infiltrate*
start one Position higher; *Broker/Parley* worse. tem[**Endure**] Conserve Supplies and protect
Condition; ignore the first *Weather* penalty each day.

largeDay Flow

Morning scene ß Midday trek ß **Camp Phase**. On long pushes, insert a **Midday Review**: change Intent, check **Weather**, remind **Projects**.

LargeWilderness Actions (Common)

labelsec:actions

tem **Navigate (Wits+Survey)**: set course/avoid hazard. DV per biome (24) adjusted by Weather. tem **Forage (Wits+Survival/Craft)**: gather food, water, fuel, or herbs. DV by biome (see §??). tem **Hunt/Track (Wits+Track)**: stalk prey or follow spoor. DV 25; Forest/Badlands help; Steppe/Desert hinder. tem **Cross Hazard (Body+Tactics/Craft)**: ford, ledge, dune. DV 25; failure ticks **Weariness +1** or **Supplies 1**. tem **Hide Sign (Wits+Subterfuge)**: erase spoor, control smoke, false trails. DV 24; on hit reduce **Sign 1**. tem **Blaze Trail (Wits+Craft)**: leave discrete waymarks; on hit, create *Trail* tag for your party; rivals can notice on 1s. tem **Parley with Wardens/Spirits (Presence+Sway/Rites)**: claim rites or hospitality; on miss start **Oath/Offense [4]**. tem **Harvest Components (Wits+Craft/Herbal)**: gain oneuse tags: *Hardy Rations*, *Bitter Tincture*, *SapResin*, *Smoke-Blend*.

DV Cheats: using a relevant **String** (ford rights, shrine hospitality, grazing compact) is DV 1 or Position +1 once/scene.

LargeCamps Hearthfires

labelsec:camp

largeCamp Quality (03)

How well you settle (shelter, heat, dryness, watch). Improves Position next day by Camp Quality (max +1) and speeds recovery.

largeMaking Camp

tem **Build Camp (Wits+Craft)**: set Quality 1 on hit; +1 with good site; on 1 start **Verm-in/Leak [4]**. tem **Assign Watches**: 13 PCs/followers; each can preempt one SB spend or spot an approach early. tem **Hearthfire Rite (Presence+Rites)**: claim hospitality with the land. On hit, clear **Weariness 1** and create **Audience: Warm**; on 1, add **Superstition: Ill**

Omen. tem **Repair Recuperate:** clear **Weariness 1**; step down one minor **Harm** with supplies/time; spend **Supplies** to cook & add *Heartened* tag for tomorrow (one Position +1).

large**Breaking Camp**

Poor break (rush, storm) & **Sign +1**; careful break & **Sign 1** with time.

Large**Hazards Pressures**

large**Terrain Hazards (by biome)**

See biome entries for typical hazards; use *Cross Hazard* action.

large**Weather Matrix**

labelsec:weather Advance **Weather [46]** when a PC rolls a 1 on a wilderness action (Navigate, Forage, Hunt, Cross, Hide Sign, Blaze Trail, Parley). On fill, trigger a weather event.

tem[Rain/Monsoon] fords impassable; **Distance** only on strong hits; on any 1, **Condition +1** (soak/rot). tem[Snow/Whiteout] sight/aim Position 1; **Weariness +1** at day end unless *Shelter*. tem[Heat/Dry] *Forage* Position 1; at camp spend extra **Supplies** or **Weariness +1**. tem[Dust/Sand] *Hide Sign* Position 1; on any 1, **Condition +1** (abrasion) and **Supplies 1** (waste). tem[WardStorm] supernatural; scenes start **Desperate** unless rites/wards; strong hit clears **Weariness 1**; 1 & **Sign +1**.

large**Beast Pressure (Optional)**

Track **Beast Pressure [46]**. Advance when: you kill prey and leave the carcass, fail a *Hide Sign* roll, or the GM spends 2 SB to mark a tick. When the timer fills, an apex predator confronts the party (treat as a Cap 34 threat). Reduce Beast Pressure by: feeding the predator (lose 1 Supply), performing a successful *Hunt* on it, or leaving the area completely.

large**Wilderness SB (GM menu)**

labelsec:sb In addition to biomespecific options, use these universal complications:

tem **Spook the Team:** **Weariness +1** or **Supplies 1**. tem **Unwelcome Smoke:** **Sign +1**; start **Watcher [4]**. tem **Bad Footing:** minor **Harm** or wagon **Condition +1**. tem **Rumor on the Wind:** rivals gain 1 **Clue**. tem **Foul Water:** start **Sickness [4]**.

Large**Hunts, Chases Stalks**

large**Pursuit Ladders**

Foot: DV 2 open ground; 3 brush; 4 rocky; 5 marsh.

Horse/Beast: DV 2 steppe road; 3 ruts; 4 switchbacks; 5 dunes.

Boat (backwaters/coast): DV 2 open; 3 reeds; 4 tidal; 5 fog.

large**Stalk Ambush**

Create *Concealment* (Stalk DV 24); spend for Position +1 or DV 1 on the strike. On a 1 while stalking, the prey gains *Wind of You* (tag).

large**Prey Harvest**

Small game (DV 23) • Herd beasts (DV 34) • Apex (DV 45). On hit, take **Supplies +1** and 1 **Component** tag; on strong hit choose +1 extra or a **Clue**. On 1s, start **Beast Pressure +1**.

Large**Outposts Strongholds (Asset tieins)**

Treat semipermanent bases as **Assets**: *Outpost, Hunting Lodge, Ranger Tower, Shrine Hermitage*. **Projects**: *Smokehouse (4), WardRings (6), Hidden Cache (4), Tethered Ferry (6)*. **Upkeep/Yield**: as assets; gain **Clue/Favor/Leverage** themed to the wilds.

Large**Denizens Factions**

Ranger Orders (Strings: watchtowers, trail codes) • Shrine Keepers (hospitality, taboo enforcement) • Game Wardens (hunting warrants) • Poacher Bands (hidden blinds, buyers) • Beast Courts/Spirits (wardrings, omen stones) • Raid Banners (camp maps, remount chains). **Faction Timers**: Influence/Stability/Exposure work unchanged; Exposure may reflect **Sign** or rumor rather than city scandal.

Large**Generators**

large**Landmarks (d66)**

11 stone waygate; 12 singing dune; 13 blue fenlight; 14 shattered menhir; 15 frostwell; 16 cliff hive; 21 thorn maze; 22 rope bridge; 23 kurgan field; 24 tide cave; 25 obsidian flow; 26 wolf run; 31 birch ring; 32 drowned bell; 33 salt jackstraws; 36skystair; 35 whispering reeds; 36 geyser plain; 41 storm beacon; 42 peat stack; 43 hunter's cairn; 44 moon pool; 45 basalt organ; 46 amber mire; 51 stag wallow; 52 avalanche chute; 53 tide mill; 54 dead forest; 55 sunken road; 56 glacier window; 61 giant's table; 62 foxfire glen; 63 saint's anchor; 64 glass beach; 65 hanging valley; 66 dragon's brows.

large**Trail Complications (d12)**

1 cracked axle; 2 false cairns; 3 flooded ford; 4 hostile patrol; 5 lost kit; 6 gust front; 7 slick lichen; 8 jealous spirit; 9 echo confusion; 10 fresh predator spoor; 11 smoke on horizon; 12 fire in camp.

large**Boons Finds (d12)**

1 ripe berries; 2 clean spring; 3 dry cave; 4 remount cache; 5 sacred ash; 6 ironwood stave; 7 resin patch; 8 herb clutch; 9 fossil charm; 10 hunter's map; 11 ferryman token; 12 stormproof tarp.

Large**Integration Notes**

tem **Urban**: Trail markets and wardens' courts are venues; districtstyle tags apply. Standing with local offices = Position +1 for writs. tem **Caravans**: Wilderness legs use this module; *Camp* replaces caravan stops; *Overextend* increases **Weariness/Condition**. tem **Political**: Ranger orders and wardens function as factions; Strings = warrants, towers, taboo rites. tem **Assets/Patrons**: Outposts as assets; hunting/ford rights as **Patron Strings**. tem **Psionics**: *Dream Weather*psions may read omens for **Clue** or reduce **Weather**; *Mind Beacont*telepathic

whistles once/day at **Sign +1**. tem **Dragon's Lair**: Landmarks (kurgans, storm beacons, saint's anchors) can map to lairs/hoards; *WardStorms* hide wyrm traffic. tem **Ranger Talents**: See Appendix A for tracker, guide, and warden talent chains that interact with intents, tracks, and camp.

LargeExample of Play (short)

Setup: Expedition crosses *Thornweald* β *Skybreak Pass* (Distance [6], Danger [4], Weather [4: rain]). Intent: **Scout**. Tracks: Supplies 4/6, Weariness 2/6, Sign 1/6.

Navigate the Tangle (Wits+Survey, Forest DV 3): Hit β **Distance +1**; a 1 shows β GM spends SB *Bad Footing*, minor Harm.

Hide Sign (Wits+Subterfuge, DV 2): Strong hit β **Sign 2**. You blaze a subtle *Trail* for return.

Camp Phase: Build Camp (Quality 1); Hearthfire Rite (hit) clears **Weariness 1** and creates **Audience: Warm** with a shrine keeper. Night watch preempts a *Spook the Team* SB.

MorningCross Scree (Body+Tactics, Mountain DV 4): Partial β progress with **Weariness +1**. Weather advances β **Condition +1** risk; choose **Endure** intent tomorrow to ignore first penalty.

LargeGM Reference (one page)

LargeRanger Talents

labelapp:rangertalents See the companion document *Ranger Talents and Talent Chains* for wildernessfocused talents. The following summaries are for quick reference.

largeTracker Chain

Blood Scent (2 XP): +1 die to Hunt/Track; once per scene, learn a creature's weakness.

Persistence Hunter (3 XP): Hunt intent reduces Distance on strong hit; reroll one failed Hunt die.

Harvest the Kill (4 XP): gain +1 Supply and free component on successful hunt.

Apex Stalker (6 XP): ignore first Beast Pressure tick; apex prey DV –1; spend 1 Boon to learn its intention.

largeGuide Chain

Trail Sense (2 XP): +1 die to Navigate/Blaze Trail; ignore Parley penalty on Traverse intent.

Blaze the Path (3 XP): create *Trail* tag; strong hit reduces Sign.

Shortcut Master (4 XP): reduce Distance by extra 1 on Navigate success; avoid one hazard.

RoadSinger (6 XP): Navigate with Scout benefit while advancing Distance; ignore first Weather penalty; spend 1 Boon for lasting *Trail*.

largeWarden Chain

Woods Warden (2 XP): +1 die to Build Camp and Hearthfire Rite; ignore first Weather penalty on Endure intent.

Sheltercraft (3 XP): Camp Quality +1 on success; strong hit reduces Weariness; spend Supply for watch bonus.

Staunch Vigil (4 XP): extra watch slot; preempt one SB per night; reduce Sign after watch.

HearthKeeper (6 XP): Hearthfire Rite grants extra boon (extra Weariness clear, Danger -1, or *Audience: Warm*); allies heal 1 Fatigue.

largeStandalone

Camouflage (2 XP): Hide intent improves first Hide Sign Position.

One With the Land (3 XP): invoke one biome tag per day; autoforage in home biome.

Verdant Ward (4 XP): consecrate camp against supernatural; ward lasts until broken.

Herbal Remedy (3 XP): create Bitter Tincture without roll; spend Supply for instant dose.

LargeChangelog

v0.2 Revised based on playtest feedback:

tem **Weariness** now triggers individual Fatigue when full, not a separate condition. tem Added **biomespecific Forage DV** and **SB options**. tem Clarified **Weather timer triggers** (on 1s from wilderness actions). Integrated **Beast Pressure** with clearer triggers and reduction. Added **follower integration** sidebar. Added crossreference to **Ranger Talents** appendix. Tightened DV ranges and added quick reference tables.

v0.1 First pass.

This module adds procedures only; defer to the core SRD for roll math and adjudication.

LargeTracker Chain

sectionBlood Scent **2 XP** fill *Tags: Track, Hunt*

Passive. You gain **+1 die** to all *Hunt/Track* rolls. Once per scene, when you successfully track a creature, you may also learn one of its *weaknesses* (armor bypass, elemental susceptibility, or a Condition it carries).

sectionPersistence Hunter **3 XP** fill *Prerequisite: Blood Scent*

When you choose the **Hunt** intent, you may reduce **Distance** by 1 on a strong *Hunt/Track* hit (in addition to normal progress). If you fail a *Hunt* roll, you may mark 1 **Fatigue** to reroll one die.

sectionHarvest the Kill **4 XP** fill *Prerequisite: Blood Scent*

When you successfully hunt a creature, you gain **+1 Supply** (in addition to normal yield) and may harvest one **Component** (e.g., *Hardy Rations, Bitter Tincture, SapResin*) without a separate *Harvest* roll. On a strong hit, gain an extra component of your choice.

sectionApex Stalker (Capstone) **6 XP** fill *Prerequisite: Persistence Hunter, Harvest the Kill*

Once per session, you may ignore the first **Beast Pressure** tick caused by your party. When you *Hunt* an apex threat (e.g., wyrm, dire bear), you treat its DV as 1 lower and may spend 1 Boon to learn its *intention* (what it will do next exchange). Additionally, you may reduce **Beast Pressure** by 1 after a successful hunt.

LargeGuide Chain

sectionTrail Sense **2 XP** fill *Tags: Navigate, Survey*

Passive. You gain **+1 die** to all *Navigate* and *Blaze Trail* rolls. When you choose the **Traverse** intent, you may ignore the Position penalty for *Parley* (you still appear hurried, but your route knowledge offsets it).

sectionBlaze the Path **3 XP** fill *Prerequisite: Trail Sense*

When you *Blaze Trail*, a success creates a *Trail* tag that benefits your entire party for the rest of the journey (others following your marks gain **+1 die** to *Navigate*). On a strong hit, you also reduce **Sign** by 1 (your marks are subtle). You may spend 1 Boon to extend the *Trail* tag to one additional leg.

sectionShortcut Master **4 XP** fill *Prerequisite: Trail Sense*

Once per day, when you *Navigate* and succeed, you may reduce **Distance** by an extra 1 segment (in addition to normal progress). On a strong hit, you may also avoid one Terrain Hazard without a roll. This talent works with any intent except **Hide**.

sectionRoadSinger (Capstone) **6 XP** fill *Prerequisite: Blaze the Path, Shortcut Master*

Once per leg, when you *Navigate*, you may treat the roll as if you had chosen the **Scout** intent (avoid Danger) while still advancing **Distance** as **Traverse**. In addition, you and your party ignore the first Weather penalty each day. You may also spend 1 Boon to create a *Trail* tag that lasts for the entire expedition.

LargeWarden Chain

sectionWoods Warden **2 XP** fill *Tags: Camp, Defend, Survival*

Passive. You gain **+1 die** to *Build Camp* and *Hearthfire Rite* rolls. When you choose the **Endure** intent, you may ignore the first Weather penalty of the day.

sectionSheltercraft **3 XP** fill *Prerequisite: Woods Warden*

When you *Build Camp*, a success grants **Camp Quality +1** (to a maximum of 3). On a strong

hit, you also reduce **Weariness** by 1. In addition, you may spend 1 Supply to improve the camp's defence against predators, granting the party **+1 Position** on the first watch roll.

sectionStaunch Vigil **4 XP** fill *Prerequisite: Woods Warden*

During the **Camp Phase**, you may assign yourself to watch without counting against the party's watch limit (you cover an extra shift). While on watch, you may preempt one **Wilderness SB** spend per night (e.g., *Spook the Team*, *Unwelcome Smoke*) by describing how you avert it. After a successful watch, you may reduce **Sign** by 1.

sectionHearthKeeper (Capstone) **6 XP** fill *Prerequisite: Sheltercraft, Staunch Vigil*

Once per day, when you perform the *Hearthfire Rite*, you may choose one additional boon from the following list: clear an extra **Weariness**, reduce **Danger** by 1, or create an *Audience: Warm* tag that benefits the party's next social roll with a local faction. In addition, you and your allies heal 1 Fatigue (in addition to normal camp recovery) when the rite succeeds.

LargeStandalone Ranger Talents (Unchained)

These talents do not belong to a chain but are useful for any wildernessfocused character.

sectionCamouflage **2 XP** fill *Tags: Hide, Stealth*

When you take the **Hide** intent, you may improve your first *Hide Sign* roll by one Position step (e.g., Controlled ß Dominant). You also gain +1 die to any roll to avoid being spotted by nonmagical sentries while in natural terrain.

sectionOne With the Land **3 XP** fill *Prerequisite: any two Ranger talents*

You learn one **Biome Tag** effect from your current region (e.g., Forest's *Stalk/Hunt DV -1*). You may invoke that effect without spending a string, once per day. Additionally, you can always find food and water in your home biome (no roll required) as long as it is not magically blighted or seasonally barren.

sectionVerdant Ward **4 XP** fill *Tags: Warden, Nature*

When you *Consecrate* a camp or shrine (using a ritual or a *Hearthfire Rite*), you may add the *Ward* tag to the area. Any supernatural creature crossing the ward must test Spirit+Resolve (DV 4) or suffer -1 die to all actions for the scene. This lasts until the camp is broken. You may maintain only one Verdant Ward at a time.

sectionHerbal Remedy **3 XP** fill *Tags: Heal, Harvest*

When you *Harvest Components*, you may choose to create a *Bitter Tincture* (clears 1 Fatigue or downgrades a minor Condition) without a roll. Once per day, you may spend 1 Supply to instantly produce a dose that can be applied to yourself or an adjacent ally as an action.

LargeUsing Ranger Talents with the Wilderness Module

tem **Intent Dials:** Many talents offer bonuses when a specific intent is chosen (*Traverse, Scout, Hunt, Hide, Endure*). This encourages tactical daily planning. tem **Party Tracks:** Talents that reduce **Distance**, **Danger**, **Sign**, or **Weariness** help the whole party survive longer expeditions. tem **Camp Phase:** The Warden chain directly improves camp quality, watches, and hearthfire rites, making night scenes less punishing. tem **Hunts Chases:** The Tracker chain interacts with *Beast Pressure* and the *Hunt/Track* action, rewarding players who focus on stalking prey. tem **Guide Chain:** Helps with navigation and reducing **Weather** penalties, making long treks faster and safer.

LargeExample: A Seasoned Ranger Build (60 XP)

tem **Attributes:** Wits 4, Body 3, Spirit 2, Presence 2. tem **Skills:** Survival 4, Stealth 3, Track 3, Craft 2, Navigate 2. tem **Core Talents:** Blood Scent (2), Persistence Hunter (3), Trail Sense (2), Blaze the Path (3), Woods Warden (2), Sheltercraft (3). tem **Standalone:** Camouflage (2). tem **Playstyle:** Choose **Hunt** or **Traverse** intent. Track prey with Blood Scent, reduce Distance with Persistence Hunter and Trail Sense, and keep the party safe with Woods Warden and Sheltercraft during camp. Use Camouflage when stealth is required. A versatile ranger who can both hunt and guide.

These talents are designed to be used with the *Wilderness: Hinterlands* *Hearthfires* module. See that document for full rules on tracks, intents, and wilderness actions.
