Character Creation Walkthrough

Before You Begin: The Philosophy

“Do not try to build a ‘perfect’ character. Build one who owes a debt, carries a scar, and has a name that someone will remember. The numbers will follow the story—not the other way around.”

— The Grey Wanderer

Key principles to embrace:

- **Flavor is free** — describe your character however you want; mechanics don’t limit creativity
- **Boons are not XP tokens** — spend them freely; hoarding starves the table of drama
- **Embrace failure** — Partial and Misses make the story interesting
- **You manage your own resources** — track your own Obligation, Fatigue, Boons

Step 1: Concept Seed (5 minutes)

Start with a simple sentence that answers three questions:

- 1. **Who are you?** (ancestry, origin)
- 2. **What do you do?** (profession, role)
- 3. **What defines you?** (a trait, a debt, a scar)

Sample Concepts	
Concept	Sentence
Duelist	“A Vhasian exile who lost everything in a duel and now fights to reclaim her name.”
Hedge Witch	“An Aelaerem village healer who learned magic from her grandmother—and inherited her debts.”
Runekeeper	“An Aeler tunnel-wright who broke a seal in the deep ways and now serves the Patron who answered.”
Rogue	“A Silkstrand gutter rat who picked the wrong pocket and now owes a crime lord.”

Sample Build (Kaelen): *“A Vhasian duelist who lost his family’s charter in a rigged trial. He carries his father’s sword and a vow to restore his house’s name—or die trying.”*

Step 2: Choose Your Role (5 minutes)

Your primary role determines your primary Attribute.

The Five Roles				
Role	Primary tribute	At-	What You Do	Example
Striker (melee)	Body		Stand in front, deal damage	Fighter, barbarian, duelist
Ranger (ranged)	Wits		Shoot from distance, scout	Archer, hunter
Face (social)	Presence		Talk, negotiate, deceive	Diplomat, courtier
Mage (magic)	Spirit or Wits		Cast spells, solve problems	Wizard, runekeeper
Support (healing)	Spirit		Heal, protect, aid	Cleric, healer

Kaelen's choice: Striker (melee damage) → **Primary Attribute:** Body

Step 3: Set Attributes (5 minutes)

You have **32 XP** to spend on Attributes. Each starts at 1. Cost: **new rating × 3 XP**.

Recommended Starting Arrays					
Build Type	Body	Wits	Spirit	Presence	Total XP
Striker (melee)	3	2	1	1	21
Ranger (archer)	2	3	1	1	21
Face (social)	1	2	1	3	21
Mage (spellcaster)	1	3	2	1	21
Support (healer)	1	2	3	1	21
Balanced	2	2	2	2	24

Kaelen's Attributes:

Attribute	Rating	Cost Calculation	XP
Body	3	1→2 (6) + 2→3 (9)	15
Wits	2	1→2 (6)	6
Spirit	1	—	0
Presence	1	—	0
Total			21 XP

Remaining XP: 32 - 21 = 11 XP

Step 4: Choose Your Skills (5 minutes)

Skills start at 0. Cost: **new level × 2 XP**.

Skill List by Category				
Combat	Physical	Social	Knowledge	Magic
Melee	Athletics	Sway	Lore	Arcana
Ranged	Stealth	Command	Investigation	Ritual
Brawl	Endurance	Deception	Medicine	Psionics
Tactics	Craft	Performance		
	Survival	Insight		

Kaelen's Skills:

Skill	Rating	Cost Calculation	XP
Melee	1	0→1 (2)	2
Athletics	1	0→1 (2)	2
Endurance	1	0→1 (2)	2
Total			6 XP

Remaining XP: 11 - 6 = 5 XP

Step 5: Choose Talents (5 minutes)

Talents are special abilities. Costs vary by power level.

Talent Tiers		
Tier	XP Cost	Scope
Minor	2-3 XP	Small situational bonus, once/scene
Major	4-6 XP	Strong upgrade, permanent effect
Prestige	7-10 XP	Campaign-defining
Epic	11+ XP	Legendary ability

Kaelen's Talent:

Talent	XP	Effect
Weapon Mastery (longsword)	5	+2 dice with longsword, once/scene +1 Effect

Remaining XP: 5 - 5 = 0 XP

Step 6: Choose a Patron (Optional, 5 minutes)

For non-magical characters, skip this step. For magical characters, choose a Patron.

Recommended First Patrons			
Patron	Domain	Best For	Obligation Style
The Traveler	Roads, journeys	Guides, scouts, couriers	Low, forgiving
Oath of Flame & Light	Vows, radiance	Paladins, clerics	Moderate, smiting
The Witness	Truth, memory	Investigators, judges	Moderate, revelation
Ikasha	Shadow, secrets	Rogues, spies	Moderate, stealth
Inaea	Mercy, connection	Healers, guardians	Low, community

Kaelen is non-magical → no Patron.

Step 7: Bonds & Complications (Optional, +XP)

You may take up to **two total** from any mix (e.g., 1 Bond + 1 Complication, or 2 Bonds, or 2 Complications). Each gives **+2 XP**, max **+4 XP**.

Bonds (+2 XP each): A mutual relationship with another PC. Once per session, when you act on the Bond with intricate description, **both gain 1 Boon**.

Complications (+2 XP each): A burden your character carries. Each unresolved Complication adds **+1 banked Story Beat** to early scenes.

Kaelen’s Choices:

Type	Name	Description
Bond	Lyra (rogue)	“She helped me escape the trial that ruined my family.”
Complication	—	“The magistrate who condemned my family still hunts me.”

Bonus XP: +4 (1 Bond + 1 Complication)

Starting XP: 32 + 4 = **36 XP total**

Step 8: Gear & Final Touches (5 minutes)

Starting Gear (assumed free):

- One set of clothing appropriate to your culture
- A melee weapon (Light or Medium) or a ranged weapon with ammunition
- Light armor (or Medium if your concept demands it)
- A backpack, waterskin, 1d6 days of rations, a knife, flint and steel, a small lantern or candle

- Tools for any skill you have at level 1+

Buying Better Gear (XP costs):

Item	XP

Medium weapon (e.g., longsword)	8
Heavy weapon (e.g., greatsword)	12
Light armor	4
Medium armor	8

Kaelen's Gear (starting, free):

- Longsword (Medium weapon)
- Light armor
- Traveler's clothes
- Backpack, waterskin, rations, knife, flint and steel, lantern

A name your character would answer to

The Grey Wanderer's Last Word

"Now close the book. Go make some mistakes. I will be at the inn, buying the wine with a coin that shouldn't exist, waiting to hear what road you choose."

Your character sheet is not your character. It is a tool to help you tell their story. The numbers will change. The scars will accumulate. The debts will come due.

That is not a problem. That is the game.

Welcome to Fate's Edge. The road is waiting.
